DashMagiq®

Add a *Dash* of *Magiq* to your DLP and CASB!

And dramatically mitigate:

- DLP and CASB Incident Remediation fatigue for security teams

- Difficulty of demonstrating compliance to regulatory authorities

- Pain of forming Incident Response teams that include business stakeholders

- Business disruption from blocked, critical emails
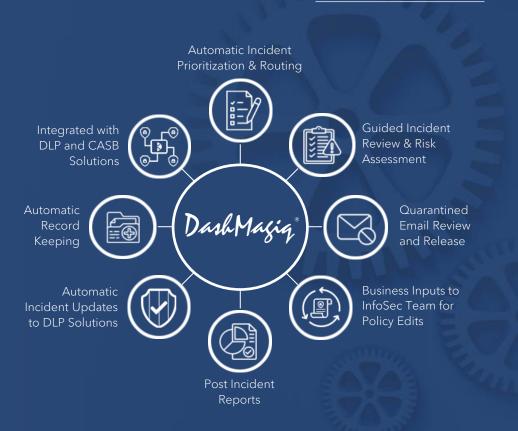

- SLA nightmares for DLP and CASB incident response and closure

- Hassle of putting together reports for various stakeholders

Use custom workflows that include business groups in DLP/CASB incident remediation

---
